

Cable Outlet

Through a MSR cable outlet the energy supply for the medical devices, which needs to be installed, will be integrated centrally and securely in the heavy-duty ceiling.

The cables are invisible concealed in the ceiling. The lower surface will be adapted and covered in accordance to the rest of the ceiling, to comply with the highest standards of hygiene.

MSR Röntgenraumtechnische Systeme GmbH Auf dem Wehrt 36 | D-54584 Jünkerath Tel. +49 (0)6597/9537-0 | Fax +49 (0)6597/4844 E-Mail info@msr-roentgentechnik.de | www.msr-roentgentechnik.de

Cable Storage

Cable storage or rewinding systems for cables for large medical devices will be securely adapted to the raw ceiling by means of a MSR heavy-duty construction.

The lower surface will be adapted and covered in accordance to the rest of the ceiling, to comply with the highest standards of hygiene.
