

## Radiation-shielding pulpits

With a radiation-shielding pulpit medical staff is optimally protected against x-rays and at the same time keep track of the patient without any view restriction.

Each pulpit is customized according to the requested requirements regarding radiation-shielding (Pb equivalence) and design.

- Wood or stainless steel models
- straight or angled design
- Installation of radiation-shielding glass without barrier possible
- various options for PC mounting, lighting and other fixtures such as desks, cable ducts and further accessories
