

# MSR radiation-shielding glass | lead-free

## Features:

- Lead-free glass with radiation protection
- High light transmission
- No cloudiness or colouration
- Easy to clean, similar to plain glass in windows
- Scratch-resistant surface thanks to hard material
- Guaranteed tensile strength thanks to lamination with safety film

Description	Glass thickness	Pb equivalent	Note	Kg/sqm	Max. dimension in mm
Lead-free glass	9.5 mm	0.40 mm	50 – 100 kV	24.5	700 x 1.479
Lead-free glass	9.5 mm	0.30 mm	150 kV	24.5	700 x 1.479

Lead-free radiation shielding glass
