

Lead and radiation-shielding sliding doors

We manufacture and install radiation-shielding doors including radiation-shielding window frame according to the customer's requirement. The delivery and installation of our lead doors can be made within **three calendar** weeks.

Variations:

- Standard and special sizes incl. heavy-duty hinges and handle set
- Lead shielding according to customer's needs and requirements
- HPL-coating and color according to customer's specification
- Single or double doors
- Incl. radiation-shielding windows, with or without voice communication and with or without variable view.
- Manual or electrically handling
